About Us

Dear Business Partners, it is my pleasure to introduce the 2025 edition of our annual product catalogue. As always, while we tend to focus on the positive, I must acknowledge that we are still navigating a period of significant political and economic shifts that have affected industries worldwide. While these challenges have been persistent, our team at AMBROS ENTERPRISE is fully dedicated to remaining a stable, reliable, and trusted partner during these uncertain times. Together, we will continue to move forward with confidence into the future.

For 2025, we are proud to offer several exciting updates. We have expanded our product portfolio to include innovative textile solutions, focusing heavily on sustainability. Our commitment to eco-friendly practices is reflected in a growing range of products made from recycled materials, organic cotton, and sustainable fabrics, designed to meet global sustainability standards.

Additionally, we continue to innovate in the home and hotel textile sectors with new designs, improved fabrics, and a keen focus on quality and durability. Our enhanced manufacturing capabilities allow us to fulfill both large and small orders with precision and efficiency, ensuring the highest level of service to you and your clients.

We are deeply grateful for the continued trust and support you have shown us over the years. As we move forward in 2025, we are more committed than ever to strengthening our partnership and achieving mutual success. Our team is here to provide exceptional service, as always, and we look forward to the opportunities and growth ahead.

“*Good* night - may you fall asleep in the
arms of a dream,
so beautiful, you'll cry when you awake.”

~ Michael Faudet

When someone goes to bed, they use the pillow that suits them best to get a good sleep, since, based on their sleeping position, they must use the pillow most adapted to their needs. Pillows are linked to health at night, so hotels offer menus with different pillow types for every kind of person.

To sleep on your stomach, the best choice is a soft and low pillow.

To sleep on your back or if you change your sleeping position repeatedly, you must choose a pillow of medium height and medium firmness.

To sleep on your side, you will need a thick and firm enough pillow.

For people with neck injuries, it is best to go for a special pillow that conforms to the neck.

DUVET COVER

DUVET COVER

The most inexpensive way to make your duvet look absolutely ravishing on your bed would be through a duvet cover, The AMBROS ENTERPRISE uses the Premium quality fabric that is easy to wash and would enhance the look of the duvet covers after every wash. The softness of the fabric gives a sheltered and homely feel to our guests.

DUVET/COMFORTER

DUVET/COMFORTER

A duvet is only good as its filling. The 'AMBROS ENTERPRISE' duvets come in a variety of sizes, and are crafted from fillings made from natural fibers such as duck or goose down, and the synthetic microgel fiber or polyfibers.

Size Guide

The natural duvets have the benefit of being both durable and naturally breathable keeping you cozy. The synthetic fiber filling duvets are designed to provide the feel and comfort of a natural down duvet. They combine soft textures and weightless warmth, and are hypoallergenic.
